## HERE'S NEW VIGOR FOR OVERWORKED STOMACHS

F. D. Pierce the popular druggist, has been in the drug business long enough to have his own opinion of the best way of selling medicines. He says the plan adopted by Mi-o-na the great dyspepsia remedy, is the fairest he has ever heard of. He doesn't believe that a medicine ought to be paid for unless it does the user some good. And Mi-o-na is sold under a positive guarantee to relieve dyspepsia or to refund the money. You simply leave 50 cents on deposit with F. D. Pierce and if, after you have used the box of Mi-o-na, you decide that it has done you no good, all you have to do is to tell Mr. Pierce so and he will return your money.

Hundreds of people have been relieved of stomach agonies by using this remarkable remedy. It is not simply a food digester; it is a medicine that puts all of the digestive organs into normal condition and gives ruddy, glowing and vigorous health. A change for the better will be seen after the first few doses of Mi-o-na, and its continued use will soon give the power to eat anything at any time and not suffer distress afterward. Use Mi-o-na and see how much more there is in life.

Sold and guaranteed in Orleans by F. J. Kinney.

## A SHORT HISTORY OF THE M. E. CHURCH IN BARTON.

CONTINUED FROM PAGE ONE

Kellogg. In 1836 N. Howe and J. Dow were the pastors. In 1837, Messrs. N. Howe, G. B. Houston and William Blake were here. These were followed in 1838 by J. S. Gridley. In 1839-40, I. D. Rush was here and the last named year, H. Hitchcock assisted him. During his pastorate the parsonage was built, Mr. Rush doing much of the work with his own hands. In 1841, Hollis Kendall and James Palmer, and in 1842 Hollis Kendall and N. W. Scott supplied the Methodist desk. In 1843 Alanson Gibson, followed the next year by E. Pettengill and O. S. Morris. The next year it appears that Glover Pettengill preached here and supplied Glover. That was in 1845. In 1846 Otis Dunbar came and stayed one year. In 1847 and 1848 D. S. Dexter preached here and also in Glover and was exceedingly popular. In 1849, A. Newton came and in 1850 H. J. Wooley. J. S. Spinner stayed two years. Under J. S. Spinner's labors Mr. and Mrs. I. K. Drew were converted in a revival. He gave place to Dyer Willis in 1853. In 1854 and 1855 Isaac McAnn, an Englishman, a most eloquent preacher, was stationed here, and in 1856 E. D. Hopkins came. After Dyer Willis deposed the old parsonage was sold and the society purchased a house on Water street for a parsonage. In 1857 E. D. Hopkins preached here and at Irasburg and in 1858 D. S. Dexter came and stayed three years.

In 1859 the Vermont conference was held at Barton and Bishop Simpson preached a wonderful sermon if the testimony of scores was true. For years that sermon was referred to as a masterpiece effort, the opportunity of a lifetime so represented, to the hearers.

Lewis Hill followed in 1861 and stayed two years and several were added to the church during his stay. In order came H. P. Cushing, who was in charge three years. Mr. Cushing was a very patriotic man and preacher. He was popular with all and represented the town in the autumn of 1864, and was one of the most influential members of the legislature. Church Tabor followed, during whose labors there was a large revival on the mountain, the fruit of which was most helpful to the church. In 1868 he was succeeded by G. H. Bickford, one of the rarest and most devout of men. He labored during the conference year and a part of 1869 but, died on July 10th. By his death the church and Vermont Methodism lost a most valuable member.

On July 29, Rev. M. V. E. Knox came to supply two months, but by unanimous choice of the church was persuaded to fill out the conference year. T. A. Jacobs followed, and J. W. Malcolm succeeded Jacobs. A. H. Webb was here during the years of 1873-75. Brother Webb was a most excellent preacher and very successful on the charge. J. Wallace followed and served two years. W. J. Johnson was stationed here in 1878 and M. B. Cummings came next and served the church one year. A. M. Wheeler succeeded Cummings, remaining two years. Sidney S. Brigham was here in 1882-84. Selden B. Currier in 1885-86. It was during the labors of Brother Currier that the beautiful church which we now worship in was erected.

I will give you Brother Currier's little history in his own words. Suffice it to say that doubtless there was not another man in Vermont conference that could have raised so large a sum of money in the same length of time and carried the enterprise through with so little friction, as he did. To be sure he had a splendid set of men on the building committee, who worked in harmony with him. In his report he says: "Dec. 26, 1885, a subscription was started for the purpose of building a new Methodist Episcopal church edifice, the old building having been added by a committee, unsuitable for the needs of the society. The subscription book will be filed with the Quarterly Conference Records as a historical document. The building committee consisted of the following, namely, Joseph Owen, chairman; George H. Blake, secretary; S. B. Currier, solicitor of funds and collector; J. N. Webster, treasurer; Alexander Tripp, J. P. Baldwin and J. W. Howard. George H. Guernsey of Montpelier, architect, submitted a plan and details which was adopted, and the contract was made with Mr. Guernsey to build the same completed above grade line for the sum of \$9000. The cost of removing the old edifice, excavating and laying the foundation, with the furnishings was in round numbers, \$2000, making a total of \$11,000. The whole building is of beautiful architecture, built of brick and slated. Thoroughly and tastefully finished inside and completed and dedicated free from debt March 10, 1887." These are Brother Currier's words and though he has been dead five years, "his words do follow him."

Brother H. W. Worthen was here in 1887-9. He was one of the great men of the conference. He was followed by F. W. Lewis in 1890-94. W. E. Douglass succeeded him and was here during the years, 1895-99. He was very much thought of by the young people, and the Epworth League reached high-water mark during his stay. In 1900 Brother W. C. Johnson came and stayed during the years until 1906. The length of his stay indicates the esteem in which he was held by the Barton people. Brother W. B. Duke-shire succeeded Brother Johnson staying here five years until 1911. He was a man deeply religious and much beloved by his church and people in general. He was promoted to the superintendency of the St. Albans district. Brother W. E. Allen was stationed here in the spring of 1912 and wrought faithfully that year and a part of the next year, but died July 6, Brother A. W. Barnlund came and filled out the rest of the year. Our beloved pastor, Rev. I. A. Ranney, came among us last year and is working heroically with optimistic vision for the future.

The first Methodist church was of brick and was dedicated in December, 1833. The second church was dedicated in March 1837. It appears that the first parsonage was built on the site known as the William Brown place in after the first 1839 or 1840. Isaac McAnn's parsonage, 1854-55, the parsonage at the Brown place was sold and a house on Water street bought by the society. In 1874-75 the house was sold and the present parsonage built. In 1856-57, during E. D. Hopkins's ministry, the church was repaired, the

pulpit changed to the other end of the church the seats arranged in their present form and later the sinner's seats were changed from the back of the church to the pulpit end.

A number of revivals have occurred under the labors of pastors stationed here. The first mentioned was that under Brother Spinner assisted by the presiding elder, Currier, and Brother Cooper, who was stationed at Barton Landing. Brother Webb took into the church on probation 43 persons in three years. Brother Currier, besides his strenuous work at building a new church, secured as spiritual fruits 40 on probation in two years, Brother Wallace 19, and Brother Brigham 11. Several of the preachers added many to the church, not by any special revival but by faithful work. This was true of Brothers Douglass, Lewis, Duke-shire and many others. Of marriages solemnized, Brother G. H. Bickford recorded 15 in 14 months, Brother Webb 13 in two years, Brother Wheeler 24 in two years, Brother Currier 12 in two years, Brother Worthen ten in three years, Brother Lewis 39 in five years, Brother Douglass 60 in seven years, Brother Johnson 60 in seven years, Brother Allen 12 in 14 months, Brother Barnlund, three in nine months and Brother Ranney has had one that I can testify to besides six more recorded.

The oldest members of the church are as follows: Mr. and Mrs. E. G. Colliston and A. B. Blake joined the church on probation April 18, 1875; Mrs. M. E. Twombly, Oct. 17, 1875; Mrs. Laura Rand, Aug. 10, 1876; by letter, Mrs. Ellen Mason, Dec. 21, 1879; Mrs. Lizzie M. Glazier, Aug. 29, 1880; Mrs. Luella Fisk and Mrs. Nancy Simpson, April 26, 1884; G. S. Fisk, March 31, 1885. On April 1, 1888, J. N. Webster, Mrs. Nellie Webster, Ora White and John Arkley joined the church from probation, and Mrs. Julia B. Wilson by letter Sunday, Dec. 26, 1915, the following persons united with the church: Benjamin Mason, Mrs. Amy Mason, Mrs. Lucy Annis Blake, by letter, and Mrs. Mary Webster, Miss Mabel Webster and Miss Flora Webster, on probation.

The Methodist church during all these years has been a wonderful power for good, and a noble set of men have served it as preachers, and though at times it has been weak and had a hard struggle to maintain preaching by reason of removals and deaths of its members, yet, the good Lord has always raised up friends to take the places of those who have dropped out and prospered and prospered.

On it, and the outlook is hopeful for a continuance of its effective work. Optimism reigns in all its departments. The Sunday school, the prayer meeting, the faithful choir, the large audiences, the excellent preaching and the devout piety of its members in general, all this gives promise of glorious results in the future.

Not Quite.  
"Young man," inquired her father sternly, "will you give her a home like the one she has been used to?"

"No," replied the truthful sutor, "for there will be no grumpy father to come home and make every one miserable by his kicking over trifles and swearing at matters in general. There will be no mother to scold her from morning to night for wasting time merely because she wants to be neat. There will be no big brother to abuse her for not doing half of his work and no little brother to make enough noise to drive her crazy when her head aches. There won't be any younger sister to insist on reading some trashy novel while she does all the work. She will not have with me a home like she has been used to, not if I can help it."

A Monstrous Tide.  
The bay of Fundy forms a cul-de-sac at which the Atlantic ocean seems to have taken a special spite and at regular intervals pours into it an enormous amount of water. Take the harbor of St. John as an illustration of what this mighty tide must be. In most parts of the world a tide of ten feet is considered something abnormal, but at St. John it rises twenty to twenty-four feet in good weather. In stormy weather the monotony is varied by the high water mark being pushed up even ten or fifteen feet higher.

## GOOD MANNERS.

What are good manners? Many definitions have been given from time to time, but one of the best is the sort of manners which are guided by kindness and consideration for others. If you keep this in mind you need not be afraid of criticism. If you let your actions be guided by motives of kindness, if you consider others before yourself, you are bound to do the right thing—which is the kind thing—at the right time.

## CALEDONIA COUNTY.

The farmhouse of C. A. Slapp, of Hardwick, was destroyed by fire Saturday. Mr. Slapp was awakened by what he supposed was the light from the fire. He had barely time to call the neighbors by telephone and before help could arrive the building was burned to the ground. The family escaped in their nightclothes. All of the clothing was burned, all the household goods and a large amount of tools that were stored in a shed adjoining the house. Mr. Slapp's loss is \$2,500 with insurance of \$1,400.

## 615 With Electric Starter and Electric Lights

Four Inch Tires

HERE is another Overland Model. A brand new car at a brand new price. Many people prefer a car with the advantages of the larger and higher priced cars but that is smaller, lighter and more economical to run.

Model 75 is a comfortable, family car with virtually all the advantages of the very large cars at a price which is well within your reach.

The body is the latest full streamline design with a one-piece cowl.

It is handsomely finished in solid black with bright nickel and polished aluminum fittings.

Five adults can ride comfortably.

The tires are four inch all around because we believe in the advantage of large tires. They insure greater mileage and comfort than can be obtained from the smaller size used on other cars of similar specifications.

The motor is four-cylinder, long stroke block type, having a 3 1/2-inch bore and 5-inch stroke. Horsepower is 20-25. It is of the most modern design.

It has high-tension magneto ignition. This is the kind used on the most expensive cars.

The electric starting and lighting system is one of the most efficient on the market. It is of the two-unit type.

The electric switches are conveniently located on the steering column. This is the same arrangement used on the highest priced cars.

It has the easy working Overland clutch which any woman can operate. The pedals are adjustable for reach. The steering wheel is large and turns easily. The brakes are large and powerful.

The rear springs are the famous cantilever type. These are probably the easiest riding and most shock absorbing springs ever designed. With these springs riding comfort is insured.

It has a one-man mohair top.

In short, there is everything that makes this car up-to-date and comparable with many cars costing considerably more money.

You will be delighted when you see it. And when you ride in it you'll know instantly that this is your ideal of a modern automobile at your idea of a moderate price.

Other Overland models are—Model 85 five-passenger touring car \$750; the famous Overland Six seven-passenger touring car \$1145. All prices being f. o. b. Toledo.
